Overview

The California Community Colleges Chancellor's Office and the CSU Office of the Chancellor have collaborated on the development of an online portal by which Community Colleges may access the roster of CSU applicants who have indicated they are pursuing an ADT and also provide the opportunity to verify the status of ADT degrees for students directly with CSU campuses.

It is expected that current community college students will petition for graduation with the Associate Degree for Transfer and that community colleges will follow their existing local communication processes with these students. Evaluations of ADT degree status should be based upon the existing processes at the community college and the courses completed and official test or transfer credit received and awarded. The use of the ADT eVerify site will allow the verification of the degree status to be electronically submitted to all CSU campuses to which the student has applied without dependence on the student sending hard copies of the degree evaluation to each CSU campus.

The applicant lists provided represent the population of CSU applicants who self-reported their planned completion of an Associate Degree for Transfer in the Extended Profile section of their Cal State Apply application. Students who did not list their planned or completed ADT should be directed to contact the CSU campuses to which they applied to notify them of this update. CSU campuses are able to add additional applicants to the ADT eVerify database once this information is received. Most do not though so the CCC can provide a paper verification.

The timelines for winter, spring, and fall Associate Degree for Transfer verifications are available on the [SB1440.org website](http://SB1440.org). Once the deadline for verification entries has passed, CSU campuses will download the final data for inclusion in the admission evaluation processes. No updates to records should occur after this date. Some campuses begin downloading and reviewing data prior to the deadline.

4. Sort by "Last Updated Date"

Upon login to the site, CCC users will see a list of students that identified on the Cal State Apply application they have completed or are in the process of completing an AA-T or AS-T based upon the institution which was self-reported on the application. In addition to the prospective students' names, the list provides four identifiers for the prospective student: a partial address, a phone number, email address, and campus ID which the CCC can use to identify.

On the top left of the screen is the institution name and the total number of students records associated with the institution on the online report.

Users can use the “Back” or “Next” navigation button to page forward or backward through the report.

Colleges can enter students verification status information throughout the verification timeline and access the site in multiple sessions. However, to save the verifications status information entered for each session, the user must click the “Submit” button on the bottom of the report page.

CCC users can change information previously entered and submitted within the open submission period.

To prepare for the online entry users have the option to download the ADT eVerify report for the institution to an Excel .csv (comma separated values)"report format.

Simply click on the “**Download Report**” link on the top menu. An “open or save file” download dialog box will open. If the dialog box does not appear, make sure to check that the computers “pop-up” blocker feature is turned off.

Entering and Recording Students Eligibility Status

The screenshot displays the ADT eVerify for De Anza College interface. On the left, there is a search form with fields for Last Name, First Name, City, Degree, and ADT Eligibility. Below the search form, a table lists student records. The table has columns for Last Name, First Name, Street, City, Degree, ADT Eligibility Status, Edit Status, and Last Updated Date. A red box highlights the 'Edit Status' column, and a red number '1' is placed in the top right corner of the screenshot.

1. Users can enter the student's verification status directly on the list using the pull-down menu for each record. The verification data entry pull-down menu is located on the far right column of each record row

The system defaults to a blank status. Leaving the status blank means the record has not been reviewed.

When ready to enter verification status, select and enter the appropriate verification response from the drop down list on the 'Status' column for each transfer applicant listed on your colleges report page.
