THE 2021 JOB SHADOWING PROGRAM

The Job Shadowing program launched in 2019 with three students in a partnership with CSU Dominguez Hills. This year, our program has expanded to seven students and includes Cal State Fullerton.

Additionally, the Business and Finance division at the CO have joined Systemwide Human Resources in the program. Business & Information Technology, Financing & Investments and HR staffers have provided the students exposure to functional areas of their choice. They have also viewed at least one CSU Board of Trustees meeting as part of their learning experience.

The Job Shadowing Program provides students an opportunity to gain valuable insight through real and relevant learning as they determine career paths they will take after graduation. The goal is for students to come away with a better understanding of their field of interest as it relates to their current or future majors/minors and the knowledge, skills, and abilities needed to be successful.

These students have shadowed CO and campus professionals for a total of 200 hours since January, and four of our students are graduating this year. It is with great pride we acknowledge these talented CSU students in completing the 2021 Job Shadowing program. And we wish them continued success in their academic and professional endeavors.

This program upholds CSU's mission of student excellence and Systemwide Human Resources' value of Championing Student Success. It also aligns with the CSU Graduation Initiative 2025 by enhancing our student's academic experience.

This program gave me a huge opportunity to learn from the experts, professionals and caring team. Not only did I expand my knowledge about the different areas of Human Resources but I also expanded my network. I was able to meet a lot of incredible individuals ready to help. I think this is a great program for students to have hands-on experience in the field that they want to pursue. I can't thank you enough for giving me the opportunity to learn from you.
