Why Use a Fillable Form?

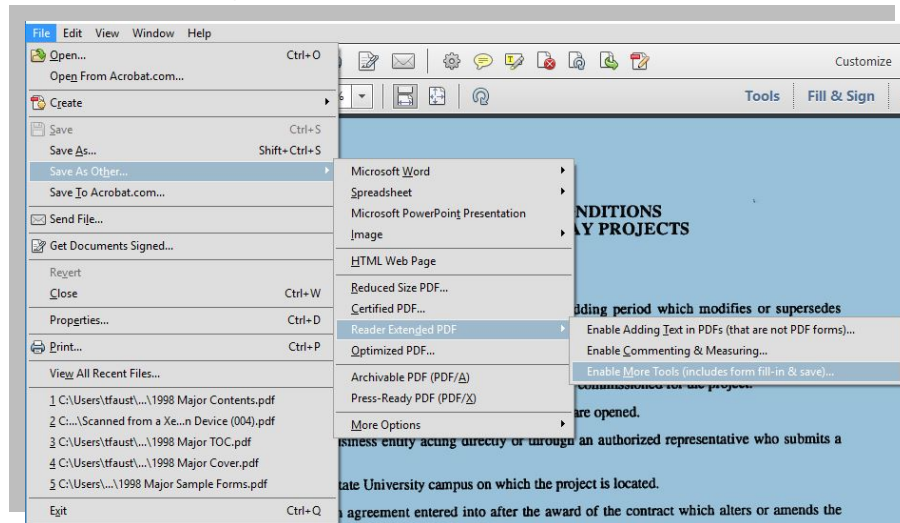

- Campus/Chancellor's Office will obtain uniform responses.
- Form is optimized to be filled out electronically.
- Precautions are embedded in the form to prevent contractor data entry mistakes.
- Firms that do not meet the desired criteria will learn immediately, thereby eliminating unnecessary applications.

Customizing the Form

- All information entered by the Contractor/Subcontractor will appear in **BLUE** text.
- The **BLACK** text in the form cannot be edited for uniformity. Any information that can be tailored to a specific project is in **RED** text.
- Any information in **RED** text is to be edited by the Campus prior to distributing to the contractors. Once the text has been appropriately edited, it can be locked and the text color will change to **BLACK** to correspond with the rest of the document and locked to prevent the Contractors from editing it.
 - Edit **RED** text for specific project/campus information and desired qualifications.
 - Click "Tools" → "Forms" → "Edit" → Right click on desired Text Box → "Properties" → "General" → Check the "Read Only box in the lower right hand corner → "Appearance" → Change text color to black → "Close"
Repeat this process until all the **RED** text boxes have been edited.

Distributing the Form

- All JOC Supplemental Prequalification Questionnaires should be distributed to prospective bidders electronically, after the above edits have been made.
- Distributed forms should not contain any remaining **RED** text.
- When saving the form to be distributed, the form should be saved in a reader extended format as follows:
