Transfer Planner vs. Transfer Success Pathway

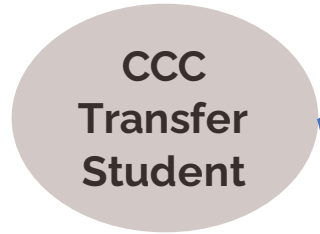

- **Transfer Planner (Tool)**- The CSU Transfer Planner has two portals: a Student Portal and a Community College Portal. The Student Portal allows students to track coursework, view articulation agreements, view program requirements and prerequisites, and enroll in a Transfer Success Pathway (TSP) agreement. The Community College Portal allows you to review a student's entered coursework, TSP agreements with a CSU, and TSP eligibility, and communicate with students.
- **Transfer Success Pathway (Program)** - The Transfer Success Pathway (TSP) is an agreement between a student and a CSU campus that guarantees admission into a degree program. Admission to a CSU is guaranteed so long as the student meets the transfer requirements outlined in the agreement within 3 years of signing the agreement.

Coursework entered by the student in the Transfer Planner will display in the Community College Portal under the Academics Tab in the student's contact page.

Each school and its relevant coursework can be drilled into by selecting its row in the grid.

Coursework properties like name, code, and whether the course is transferrable are all filterable options from the main contact grid, allowing users to find and track students based on a number of success criteria.

These filters can be applied and used to create contact segments necessary for outreach and more!
