

# WATER & ENERGY TECHNOLOGY INCUBATOR

# Our Headquarters

The Water, Energy and Technology Center is located in California's heartland – the most productive agricultural region in the world!

- 6 million acres producing more than 250 crops
- 25% of the nation's food is grown in the Central Valley (and 1% of the nation's agricultural land)
- The Central Valley represents more than \$8 billion annually in agricultural production
- Also has the highest concentration of high-value crops in the nation.
- Located on the campus of CSU Fresno – a unique intersection between academia and the private sector.

# Let's Talk Numbers!

## Our Programs & Services –

- Onsite incubator - 11 companies housed within the WET Center.
- Technology Innovation Evaluation (TIE) Program
- Valley Ventures Accelerator – Currently running in our 8<sup>th</sup> cohort.
