CSU-WATER (Water Advocacy Towards Education and Research)

Internal Working Group

Implementing the new goals and directions for CSU-WATER has and will greatly benefit from feedback of faculty leaders in the CSU during this interim period. Working group members continue to provide advice and opinions on how to best engage CSU students, faculty, administrators, and institutes on collaborations that mutually support our CSU-WATER goals.

Campus Representatives

CSU-WATER Campus Representatives have been established to foster bilateral communication of CSU-WATER relevant information, opportunities, and goals to and from their campus community. A first order of business will be updating the 'Campus Expert' list that can be shared throughout the CSU as well as with external partners and stakeholders.
